

**ALPHA MOVE**  
WE RELOCATE PEOPLE

## MOVING & STORAGE

### STORAGE-IN-TRANSIT DURING YOUR RELOCATION PROCESS

Many times a move will involve storage, whether for an "in-between" time while you are looking for a new home, or just for those extra household goods that don't make it to the new residence. ALPHA MOVE offers storage services all over the world – providing a safe and easy solution when you are faced with conflicting real estate timetables or you need some extra space.

If you are getting ready to move and you need storage, what do you do? Talk to the Support Team at ALPHA MOVE – we will discuss your situation and will analyze your needs and present in dialog with you the best storage option for your particular situation in the regional area you want storage.

Other than our competition we are not limited to the warehouse facilities of our moving network partners – we will check also the options of mini-warehouses, self-storage facilities, portable storage units or keeping the shipment on hold for delivery. Whatever the individual situation requires – by looking into several alternatives we can save huge amounts of money by passing the storage bills directly on to you.

In all moving warehouse facilities the goods will be stored in wooden storage units or in steel/aluminum containers. The warehouse facilities are clean, secure and provide storage for short- or long-term storage. All your stored items will be inventoried and professionally stowed away into the storage units as tight as peas in their pods.

We always keep in mind to hold your total relocation costs down. Sometimes storage also means moving twice. First you have to pay the move to the warehouse facility and then another move to the new residence. This, as one can imagine, gets expensive but is sometimes necessary. To accomplish this with reduced cost it would be the best solution to keep the whole project in one hand. Either option you prefer ALPHA MOVE can help with all your storage needs.

### STORAGE EXTENSION REQUEST FOR YOUR TRANSPORT INSURANCE

Mostly all Marine Transport Insurance Policies are covering worldwide the transportation from the time the household goods are taken over by a moving company and terminate on their delivery. Delivery into a warehouse is considered the same as the delivery into a residence if you do not apply for an extension of the transport insurance.

ALPHA MOVE offers with their insurance program coverage for up to 120 days without any additional premium for intermediate storage or storage-in-transit (SIT) during your relocation. Extensions must be applied for prior to the expiry of the insured period. Storages can be insured for a total of up to 6 month.
